PRODUCT BULLETIN

NEW CSA RANGER STEEL WHEEL CAPS

Mullins Wheels are proud to release two new Steel Wheel Centre Caps to enhance our extensive CSA Ranger Steel Wheel range.

The new caps are available in Gloss Black and Chrome finish.

Our unique new caps are precision made and when fitted onto the front of the wheel, with standard black or chrome wheel nuts, the cap is held firmly in place.

Our **New Ranger Steel Wheel Caps** are made from quality, high strength plastic material. They are suitable for a multitude of 4x4 applications with 6/139.7 bolt pattern. A popular vehicle application list is attached.

These caps are not suitable for vehicles with manual free-wheeling hubs. The under-cap clearance is 48 mm.

HIGH QUALITY - UNIQUE FIT - PRECISION MADE

401-170B Black Cap

401-170C Chrome Cap
